

Fanciòt

GRAPE JUICE

ALCOHOL - FREE, TASTY AND HEALTHY

NO ADDED WATER AND SUGAR

- **Grape Variety:** Blend of Moscato and Dolcetto grapes.
- **Yield:** 100q/ha.
- **Growing system:** Guyot.
- **Harvest Period:** September.
- **Production Area:** Cossano Belbo.
- **Colour:** Pale ruby red tending to pinkish.
- **Bouquet:** Intense and persistent, typical characteristic of its grape varieties.
- **Taste:** Sweet and aromatic.
- **Alcoholic percentage:** 0%vol.
- **Production method:** As in the vinification, we obtain the must from the pressing of grapes, however, in order to keep the natural sugars contained in grape, we proceed immediately with the must filtration and pasteurization (heating at controlled temperature) to inactivate the yeasts which, in normal conditions, would transform the "grapes pressing" into wine. The product is immediately packed in sterile containers and without adding anything else it is ready for consumption.
- **Bottling:** October-November.
- **Storage:** Store in a cool place and keep away from direct sunlight. Once opened, keep refrigerated and consume within 3-4 days.

- **Perfect with:** Being a fresh, alcohol-free and pleasant juice, it is capable of satisfying a broad spectrum of tastes, especially for children and youngsters, since it goes very well with several varieties of food and dishes.
- **Serving temperature:** 8-10°C.
- **Bottle capacity:** 250 ml. and 750 ml.
- **Packaging:** Boxes of 2 to 12 bottles according to the size.
- **Suggestion:** The juice can be consumed just as it is, preferably cool, but it becomes much more refreshing with the addition of water up to 50%. Moreover, it lends itself well as an ingredient for the preparation of cocktails and aperitifs with the addition of dry white wine or spumante.
- **Curiosity:** Starting the day with a glass of grape juice for breakfast is not only a delight for the taste buds but also a good gesture for health; this because a sip of grape juice, besides being an excellent thirst-quenching drink which provides balanced nutrients and energy, it contains “bioactive” substances in the grapes to which scientific research has attributed antioxidants effects good for health for the reduction of risks of diseases linked to the ageing and heart problems. The label is important not only to recognize the origin but also to verify the percentage of fruit contained in the juice: this is a drink with 100% grape content with no added water, sugar or other substances. It is obtained exclusively from grapes cultivated, harvested and pressed in our winery. Being a 100% natural product, the presence of a sediment at the bottom of the bottle doesn't compromise the quality of the product.
